This company profile has been prepared to provide a comprehensive overview of the company's background and services. All relevant information is structured and presented in a single document for clarity and ease of reference.

Company Overview

FAZMI GROUP SDN. BHD.
(Company No.: 202501005174 / 1606588-X)

Founded on a vision of excellence and innovation, FAZMI GROUP SDN. BHD. has swiftly risen to become a trusted name in the Non-Destructive Testing (NDT) and manpower solutions sectors. Originally established as Fazmi Group Enterprise in 2021 and officially incorporated as a private limited company in 2025, we are proud to be a 100% Bumiputera-owned organization committed to supporting Malaysia's industrial growth and development.

WHO WE ARE?

Strategically headquartered in Kuala Lumpur, our company delivers world-class services across key industries including Oil & Gas, Petrochemical, Refining, Energy, Fabrication, and Construction. We specialize in a comprehensive range of NDT services such as Radiography Testing (RT), Ultrasonic Testing (UT), Magnetic Particle Testing (MPT), Dye Penetrant Testing (DPI), and Positive Material Identification (PMI), among others.

At Fazmi Group, we believe that success is built on a **foundation of integrity, quality, and innovation**. Our skilled professionals leverage the latest technologies, best practices, and industry standards to ensure that every project meets and exceeds client expectations.

We are also deeply committed to cultivating a safe, efficient, and progressive work environment for our teams, reflecting our core values of professionalism, responsibility, and continuous improvement.

Driven by our mission to empower Bumiputera entrepreneurship and contribute to Malaysia's economic progress, Fazmi Group is not only focused on delivering exceptional services but also on building lasting partnerships with our clients, stakeholders, and communities.

As we move forward, Fazmi Group is determined to continue setting new benchmarks in service quality, operational excellence, and customer satisfaction – paving the way for a more dynamic and resilient industrial future.

Director's Message

It is with great pride that I introduce Fazmi Group Sdn. Bhd., a company that has evolved from our early days as Fazmi Group Enterprise in 2021 to becoming a fully incorporated private limited company in 2025. Our journey reflects our unwavering commitment to excellence, innovation, and integrity.

Through major projects like ECRL and MRT, we have proven our capabilities in Non-Destructive Testing (NDT), fabrication, pipeline services, and manpower supply. Today, Fazmi Group stands as a trusted partner in driving Malaysia's industrial and economic growth.

We remain dedicated to exceeding client expectations, embracing innovation, and empowering Bumiputera entrepreneurship. Thank you for your continued trust and support as we strive toward even greater success.

Warm regards,
Nor Fazmi Hazwan bin Rozikin
Managing Director, Fazmi Group Sdn. Bhd.

”

Innovation drives us forward, but integrity keeps us grounded. We are committed to setting higher standards in every project we touch.”

Vision, Mission & Core Values

Vision

To be a premier provider of Non-Destructive Testing (NDT) and industrial solutions, recognized for excellence, innovation, and integrity across Malaysia and beyond.

Misi

To deliver world-class inspection, fabrication, and manpower solutions through cutting-edge technology, skilled expertise, and an unwavering commitment to quality, while empowering Bumiputera entrepreneurship and contributing to national development.

5 Nilai Teras

Integrity

Client Focus

Excellence

Innovation

Teamwork

Innovation drives us forward, but integrity keeps us grounded. We are committed to setting higher standards in every project we touch.

Quality Policy

At **Fazmi Group**, we are committed to achieving the highest standards of quality in every aspect of our service. Our quality policy is centered around delivering superior services that not only meet but exceed our clients' expectations. We achieve this through:

Commitment to Excellence:

FG Group Enterprise is dedicated to providing high-quality Non-Destructive Testing (NDT) services that exceed our clients' expectations. We uphold the highest standards of excellence in all our operations, ensuring safety, reliability, and efficiency.

Continuous Improvement:

We are committed to constant enhancement of our services, processes, and technologies. Through innovation and learning, we aim to stay at the forefront of the NDT industry and continuously elevate our performance.

Compliance and Integrity:

Our operations are grounded in integrity, adhering strictly to legal, regulatory, and industry standards. We build trust with our clients, partners, and stakeholders through transparency, accountability, and ethical practices.

Customer Focus:

We prioritize understanding and meeting our clients' needs, offering tailored solutions and responsive service to forge lasting partnerships based on mutual success.

Employee Empowerment:

Recognizing our team as our greatest asset, we foster an environment that encourages professional growth, innovation, and engagement, driving our collective commitment to quality.

Our quality policy is the cornerstone of our operations, reflecting our dedication to excellence, integrity, and the delivery of value to our clients. This condensed Quality Policy embodies Fazmi Group Sdn Bhd core commitment to quality, stakeholder satisfaction, and continuous improvement in every aspect of our business.

Organizational Structures

At **Fazmi Group**, we adhere to a well-defined organizational structure to facilitate efficient management, effective communication, and smooth operation execution.

The organizational structure includes the following key positions:

Success is not measured by profits alone, but by the impact we leave behind. At Fazmi Group, we aim to create lasting value for our clients and community.

Company Information

The information provided relates to **Fazmi Group**, which has undergone the necessary business registration procedures in this state. The company holds a valid business license and permits, ensuring compliance with established regulations and laws.

List of Services

RADIOGRAPHY TESTING (RT)

Utilizes X-rays or gamma rays to inspect the internal structure of materials and detect unseen flaws.

ULTRASONIC TESTING (UT)

Employs high-frequency sound waves to detect internal flaws or to characterize materials.

MAGNETIC PARTICLE TESTING (MPT)

Detects surface and slightly subsurface discontinuities in ferromagnetic materials using a magnetic field.

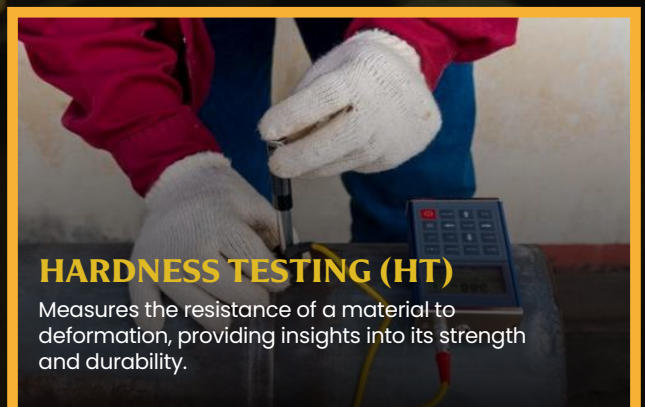

DYE PENETRANT TESTING (DPI)

Uses a dye solution to reveal surface-breaking defects in non-porous materials.

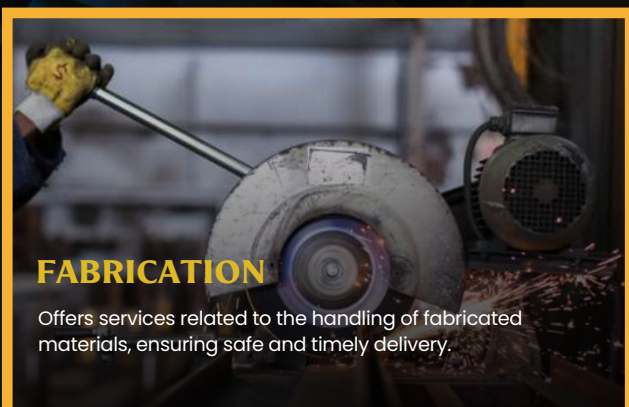

POSITIVE MATERIAL TESTING (PMI)

Analyzes materials to verify their chemical composition, ensuring they conform to the required specifications.

HARDNESS TESTING (HT)

Measures the resistance of a material to deformation, providing insights into its strength and durability.

FABRICATION

Offers services related to the handling of fabricated materials, ensuring safe and timely delivery.

WELDING QUALIFICATION TEST (WQT)

Assesses and certifies the skills of welders and the quality of their work in accordance with industry standards.

TENSILE TESTING / MECHANICAL TESTING

Evaluates the tensile strength of materials, determining their ability to withstand a specified level of stretching force.

SUPPLY MANPOWER HELPER

Provides skilled and semi-skilled manpower for various projects, supporting operations and ensuring efficiency.

INSTALLATION UNDERGROUND GRVE PIPE

Specializes in the installation of Glass Reinforced Vinyl Ester (GRVE) pipes for various applications, particularly in corrosive environments.

UNDERGROUND PIPE GLASS

Specializes in the installation and inspection of underground glass piping systems, offering solutions for durable and corrosion-resistant conduits in critical infrastructure.

BOROSCOPE INSPECTION

Offers visual inspection in hard-to-reach areas using a boroscope.

CONTROLLED BOLT TIGHTENING

Controlled Bolt Tightening is the process of applying a known and calculated load to a mechanical joint to ensure joint integrity accurately.

UTT (Ultrasonic Thickness Gauge)

A non-destructive method to accurately measure material thickness and detect corrosion in critical components.

PHASED ARRAY ULTRASONIC TESTING (PAUT)

An advanced NDT method that uses multiple ultrasonic beams to detect flaws, measure thickness, and assess weld quality with high precision.

Company Certifications

SSM CORPORATE CERTIFICATION

The image shows a formal SSM Corporate Certification document. At the top center is the SSM logo, which consists of the letters 'SSM' in a stylized font with a registered trademark symbol. Below the logo, the text reads 'SURUHANJAYA SYARIKAT MALAYSIA' and 'COMPANIES COMMISSION OF MALAYSIA'. To the right of the logo is a QR code. The document is titled 'COMPANIES ACT 2016 (ACT 777)' and 'CERTIFICATE OF INCORPORATION OF PRIVATE COMPANY'. The main text states: 'This is to certify that FAZMI GROUP SDN. BHD. 202501005174 (1606588-X) is, on and from the 06th day of February 2025, incorporated under the Companies Act 2016, and that the company is a company limited by shares and that the company is a private company.' The document is dated 'Dated at KUALA LUMPUR this 13th day of February 2025.' At the bottom right, there is a signature and the name 'DATUK NOR AZIMAH ABDUL AZIZ REGISTRAR'. The document is framed by a decorative border with small square icons at the corners.

NDT Services for **ECRL Project**

Fazmi Group proudly provided **Non-Destructive Testing (NDT)** services for the **East Coast Rail Link (ECRL)** project, covering **Station STN01** in **Kota Bharu, Kelantan**, to **Station STN08** in **Chukai, Kemaman, Terengganu**. Our services ensured the **integrity and safety of critical components**, supporting the **construction and infrastructure development** of this major national project.

Throughout the ECRL project, we employed a variety of advanced NDT methods, including **Radiographic Testing, Ultrasonic Testing, and Magnetic Particle Testing**. These methods allowed us to **detect flaws, assess weld quality, and ensure the materials used met stringent safety and industry standards**.

Ensuring Project Success

Fazmi Group's NDT services contributed significantly to the successful progression of the ECRL project. By delivering precise and reliable testing across multiple stations, we helped maintain the structural integrity and performance of the project, adhering to both timelines and regulatory requirements.

Our work on the ECRL project, from STN01 to STN08, showcases Fazmi Group's dedication to precision and excellence in Non-Destructive Testing, contributing to the project's safety and success.

Nor Fazmi Hazwan bin Rozikin
Managing Director & Founder

Collaboration with SIRIM Berhad: Mechanical Testing Services

Fazmi Group is proud to collaborate with SIRIM Berhad to establish a Mechanical Testing Lab. Our lab offers a comprehensive range of testing services. These services ensure the highest standards of material quality and performance, supporting various industries with precise and reliable results.

Bend Test

The Bend Test evaluates the ductility and resistance of a material to cracking by bending it to a specified angle. This ensures the material can withstand stress without fracturing.

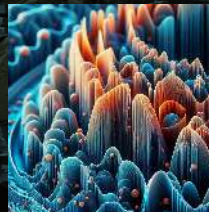

Fracture Test

The Fracture Test assesses a material's ability to absorb energy before breaking, determining its toughness and identifying any potential weak points.

Hardness Test

This test measures the resistance of a material to deformation or indentation, providing insights into its strength and durability.

Macro & Micro Analysis

Macro and Micro Analysis involve examining a material's surface and structure at both a large and microscopic level to detect defects, grain size, and overall quality.

Tensile Test

The Tensile Test determines how much tension a material can endure before breaking, providing critical information about its strength and elasticity.

Charpy Impact Test

The Charpy Impact Test assesses a material's ability to absorb impact energy at different temperatures, measuring its toughness and behavior under sudden force.

Our collaboration with SIRIM Berhad in mechanical testing reflects Fazmi Group's commitment to delivering precise and reliable results.

Nor Fazmi Hazwan bin Rozikin
Managing Director & Founder

Why Choose Us?

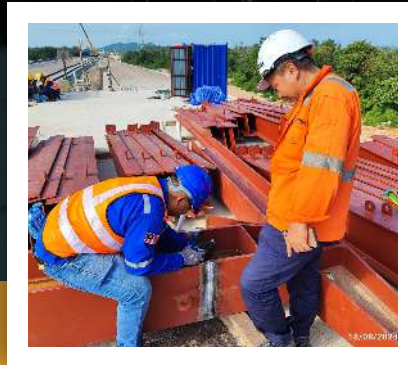

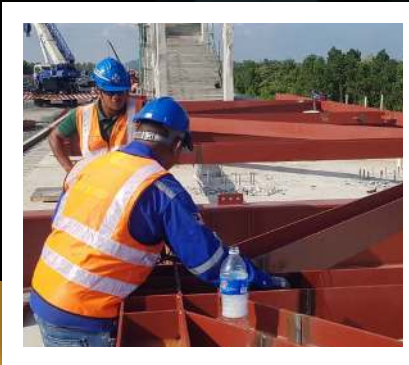

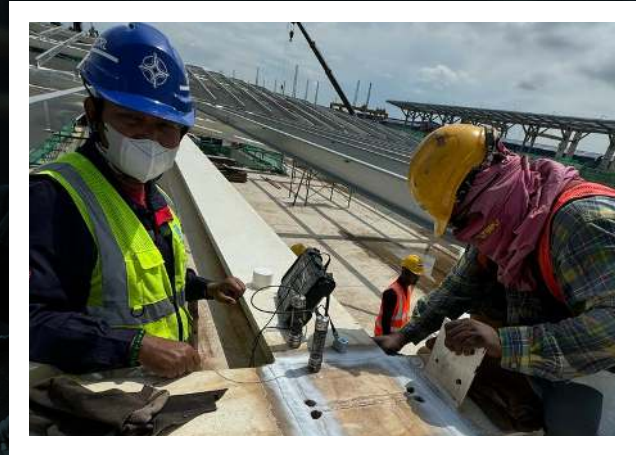

At Fazmi Group, we bring together industry expertise and a strong commitment to delivering top-quality Non-Destructive Testing (NDT), mechanical testing, and fabrication services. Our involvement in major projects like the ECRL, where we provide critical NDT services from STN01 to STN08, showcases our capability to handle large-scale, high-impact initiatives with precision and reliability. Additionally, our collaboration with SIRIM Berhad to establish a Mechanical Testing Lab allows us to offer a wide range of testing services, such as tensile, hardness, and impact tests, ensuring that all materials meet the highest standards of quality and safety. With advanced technology, international standards, and a customer-focused approach, we are dedicated to building lasting partnerships, ensuring success in every project we undertake.

We focus on building strong, long-term partnerships with our clients, providing personalized service and support at every stage of the project.

Nor Fazmi Hazwan bin Rozikin
Managing Director & Founder

Project Implementations

ECRL PROJECT

Project Implementations

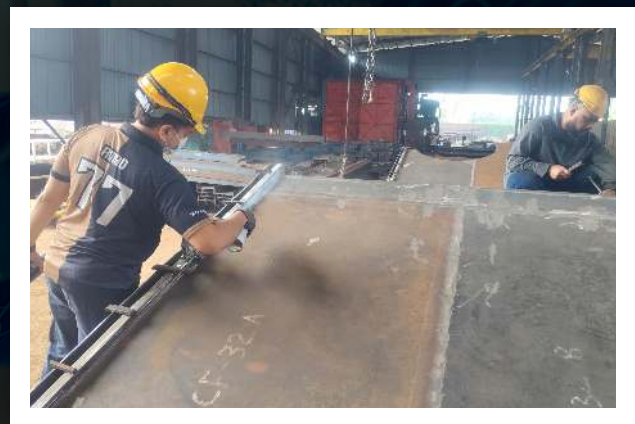

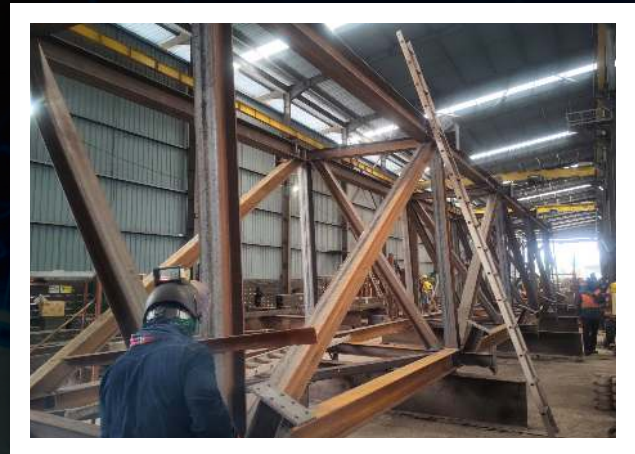

Project Implementations

Fazmi Group is honoured to serve as the **resident Non-Destructive Testing (NDT)** provider for **Preserver Engineering Sdn Bhd.** In this role, we are responsible for conducting continuous inspection and quality assurance services to support their fabrication works and ensure compliance with industry standards and project requirements. Below is the visual representation of our project implementations and service contributions carried out in collaboration with Preserver Engineering.

Frequently Asked Questions (FAQs)

1. What industries does FAZMI GROUP serve?

We serve a wide range of industries including Oil & Gas, Petrochemical, Energy, Fabrication, Construction, and Infrastructure Development.

2. Is FAZMI GROUP SDN. BHD. a certified and registered company?

Yes. We are officially registered under the Companies Commission of Malaysia (SSM) and fully compliant with national regulatory standards.

3. What makes FAZMI GROUP different from other NDT providers?

We are a 100% Bumiputera-owned company committed to precision, professionalism, and innovation. Our team uses cutting-edge technology and adheres to strict quality and safety standards.

4. Can you supply skilled manpower for large-scale projects?

Yes. We provide certified and experienced personnel including welders, QA/QC inspectors, safety officers, and general workers for industrial and infrastructure projects.

5. What geographical areas do you cover?

We are headquartered in Kuala Lumpur but operate nationwide — including major projects like ECRL, MRT, and other infrastructure developments across Malaysia.

6. How can I request a quotation or consultation?

You may contact us via email at fazmigroup@gmail.com or call us at +6011-2690 7066. Our team is ready to assist you promptly.
